DETAILED ACTION

Reissue Applications

1. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Response to Amendment

- 2. The amendment filed 6/7/04 proposes amendments to the claims that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required. 37 CFR 1.173(b) refers to 37 CFR 1.173(d) is shown below:
 - (d) Changes shown by markings. Any changes relative to the patent being reissued which are made to the specification, including the claims, upon filing, or by an amendment paper in the reissue application, must include the following markings:
 - (1) The matter to be omitted by reissue must be enclosed in brackets; and
 - (2) The matter to be added by reissue must be underlined, except for amendments submitted on compact discs (§§ 1.96 and 1.821(c)). Matter added by reissue on compact discs must be preceded with "<U>" and end with "</U>" to properly identify the material being added.

Note that claim 9 is listed as "amended" with no indicated changes to the text of the claim. Additionally, applicant has not used *brackets* to indicate removal of language from the claims.

Art Unit: 2854

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.
